Types of Medicare Advantage Plans:

In a **Health Maintenance Organization (HMO)** plan members can only go to providers in the plan's network except in an emergency. Patients may have to choose a primary care physician and secure a referral to see a specialist or be admitted to a hospital for an elective procedure.

An **HMO-POS Plan (HMO-POS)** is a health management organization with a point of service option is a type of Medicare Advantage plan, an alternative way to receive Medicare benefits. HMO-POS plans offer coverage for members that travel a lot within the country, different from the location restrictions of HMO plans. Although, members should expect a higher cost when using the point of service option (out-of-network providers).

A **Preferred Provider Organization (PPO)** plan is a type of plan in which members use providers that belong to the PPO's network, but the patient may also utilize physicians and facilities outside of the plan's network for an additional cost.

Medicare now requires that most **Private Fee-for-Service (PFFS)** plans have a contracted provider network, so private fee-for-service plans are effectively PPOs. Some PFFS plans pay the same benefits regardless of whether the treating provider is in or out-of-network. Generally speaking, PFFS plans still give members the greatest choice of providers.

A **Medicare Medical Savings Account Plan (MSA)** combines a high deductible (e.g., \$18,900) Medicare Advantage plan and a bank account. The Medicare Advantage plan makes a deposit in the account which the member then uses to pay his or her medical expenses within their deductible. If the plan's deposit is not sufficient to cover the patient's deductible, the patient makes up the difference. Any funds left in the account at the end of the year are added to the member's next deposit.

Medicare Advantage Part B Premium Reduction Plan the newest addition to the Medicare Advantage product portfolio is the Medicare Advantage Part B Premium Reduction Plan. This plan is available in all states, but not offered by all payers, and not offered in all counties. This plan is also called Medicare Advantage "Give Back" or "Buy Back" Program. Giveback plans, also known as a dividend, are plans designed to reduce your costs by "giving back" some or all of your Part B premium. The dividend is delivered directly on your Social Security check or appears as a credit on your Medicare Part B Premium Statement. **Many beneficiaries will only receive a full premium reduction if they are eligible and enrolled in Medicaid.**
