HORIZON
HEALTH

**We are the same,
only more**

Horizon Health is the new brand name for Paris Community Hospital/Family Medical Center (PCH/FMC).

The Horizon Health brand is being rolled out this month. The name and logo will appear on facility signage, community sponsorship signs, correspondence, and more. This monthly *Staying Healthy* publication reflects the new Horizon Health brand.

Horizon Health locations include Paris Community Hospital, Paris Clinic, Chrisman Clinic, Oakland Clinic, EZ Care, and Senior Care. Horizon Health also includes the many services offered within each of those locations/facilities.

Why rebrand?

- To better convey the organization’s physical growth.
- To better convey the organization’s reach and impact, which goes beyond Paris – and even Edgar County.
- To create a sense of inclusion – that all of the organization’s physical locations are part of the same organization.

- To operate with a less cumbersome name than Paris Community Hospital/Family Medical Center for everyday use.

Why the name Horizon Health?

Horizon Health suggests a pioneering spirit; a healthcare organization committed to bringing the best solutions to the people it serves.

Has Paris Community Hospital/Family Medical Center been sold?

No. It remains a strong, independent organization with a local board of directors. The organization’s legal name of Hospital & Medical Foundation of Paris, Inc. has not changed.

What does this mean for me as a patient?

- Expanded services and locations to meet your healthcare needs.
- Access to providers and technology not traditionally found in rural areas.
- Continued commitment to the organization’s mission of providing you and your family with the best possible healthcare.
- Same ownership, management, and employees that you have trusted for years.

**Welcome to
Horizon Health**

It is my pleasure to welcome you to Horizon Health.

Our new Horizon Health brand replaces Paris Community Hospital/Family Medical Center. To see what this means for you, please refer to the article on the left.

It’s hard to believe how far we have come in my 30-plus years with the organization, and as a local resident of Hume. I have watched our organization grow—adding more locations, services, and providers.

As PCH/FMC president and CEO for the past four years, I’m proud of our accomplishments and look forward to our future as Horizon Health. Many good things are still to come.

Thank you for your commitment to PCH/FMC over the years, and we look forward to serving you as Horizon Health!
