

2021 Annual Report

**Oliver Smith**  
PRESIDENT & CEO

## MESSAGE FROM THE **President**

The coronavirus pandemic continued to test us in 2021. It challenged who we are, how we responded, and how our actions would define us going forward. Looking back at the past year, I'm pleased to say that we have never lost sight of our mission and purpose during these uncertain times.

Through it all, our strength remained rooted in our rich history. Our story began when Drs. Charles McClelland and Gordon Sprague, our original owners, decided the community should own the hospital. Their donation of Paris Community Hospital formed the Hospital & Medical Foundation of Paris, Inc. (HMFP), which was founded December 30, 1958.

More than 60 years later, Horizon Health remains a community-owned, not-for-profit hospital. We do not have shareholders. We are not part of a health system. To maintain this independence, we cannot be stagnant. We must focus on growth, seek out new opportunities, and embrace change. We will continue to live by our mission and respond to community needs, while evaluating growth opportunities that are consistent with our goals.

In this annual report, you will learn about our tremendous growth over the past year, including initiatives that went beyond our main campus in Paris. The addition of new facilities and providers has always been about better serving our patients.

In these pages, you will learn how we persevered through COVID, reinvested in local healthcare, and listened to our community's needs. We continued to invest in a talented workforce, honoring our staff regularly for a job well done.

Despite the challenges of 2021, I'm proud to say that we were able to maintain a strong commitment to our patients while moving forward with responsible growth.

Sincerely,

**Behavioral/Mental Health**  
William Elliott, PhD, CCHP

**Cardiology**

## Administration

**Oliver M. Smith, RPh** | President & Chief Executive Officer

**Rachel Kelley, MS-HC, BSN, CHCM\*** | Vice President of Nursing & Chief Nursing Officer

**Martin D. Adams, CPA** | Vice President of Finance & Chief Financial Officer

**Anita Toussi, MD** | Chief Medical Officer

\*Rachel Kelley rejoined Horizon Health February 18 as the new VP of Nursing & CNO. She previously worked for the organization from 2012-2016.

“Success is knowing your purpose in life, growing to reach your maximum potential, and sowing seeds that benefit others.”

— **John Calvin Maxwell**

American author, speaker, and pastor

## « Paris Clinic Expansion

Construction of a two-story addition to the Paris Clinic continued, despite shortages in building materials due to supply chain issues. Construction of the 32,000-square-foot addition began in October 2020 and is expected to open in summer 2022. The building will house primary care providers and behavioral health services, including psychiatry, psychology, and social services (see page 6).

## Growing with Purpose

Horizon Health’s vision to meet the ever-changing healthcare needs of its communities was prevalent in 2021 with the addition of new services, facilities, and medical providers.

### » Marshall Specialty Clinic

Given the positive response to the Marshall EZ Care clinic in 2019, Horizon Health introduced the Marshall Specialty Clinic at 1006 South 6th Street. The building formerly housed the Human Resources Center of Edgar and Clark Counties and was once a KFC restaurant. The specialty clinic provides pain management services provided by Horizon Health Pain Management Clinic staff. Additional specialty services are anticipated in the future.

### » Terre Haute Specialty Clinic

At a September open house event, Horizon Health unveiled the Terre Haute Specialty Clinic at 3736 South 4th Street in Terre Haute (behind Best Buy). The clinic provides orthopedics and sports medicine services with Dr. Jeff Bollenbacher, longtime orthopedic surgeon in the Wabash Valley, seeing patients. He also sees patients in the Paris Clinic one day a week.

### » Sycamore Pain & Wellness

Horizon Health announced its partnership with a well-known Wabash Valley pain management group led by Dr. Thomas Pendergast. In addition to pain management, the group provides behavioral health, weight management, and bone health and wellness services.

Known as Sycamore Pain & Wellness, a service of Horizon Health, the team began seeing patients in mid-December at its new Terre Haute location. The building at 1378 South State Road 46 is the former site of Harrison College.

## Persevering Through Adversity

The coronavirus and its variants created new challenges in 2021. Government mandates required COVID vaccines for all healthcare workers. Coronavirus surges stressed staffing levels, supply chains, and affected patient transfers.

Horizon Health recorded 2,826 COVID positive tests in 2021, compared to 2,183 in 2020. The New Year started with 314 positive tests in January 2021. Positivity numbers declined steadily during the spring and summer, reaching a low of 30 in June. Positive tests surged in the fall and winter, with December being the highest month at 664.

The number of hospitalized COVID-positive patients was fluid throughout the year. The highest patient census was 12 (50% of capacity) in September 2021.

**During this time of adversity, Horizon Health staff rose up and adapted:**

Required appointments at the Paris and Marshall EZ Care clinics, effective September 1.

Made monoclonal antibody treatments available to high-risk, COVID-positive patients.

Secured additional staffing for the Infusion Clinic and Medical/Surgical Department due to an increase in patient volumes.

Complied with government mandates requiring weekly COVID testing for all unvaccinated staff.

Continued to provide PCR and rapid testing despite supply chain issues.

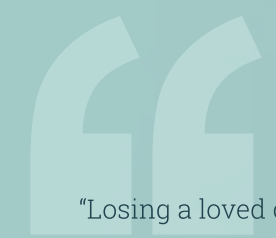

Held higher acuity patients longer due to nursing shortages at other medical facilities.

Accommodated more patients in the Mobile Integrated Healthcare program (see page 7).

## Remembrance Event

With support from local businesses and community organizations, Horizon Health paid tribute to the lives lost during the pandemic at an outdoor remembrance event September 26 at Twin Lakes Park, Paris. The event included a slide show, inspirational readings, and the laying of a wreath.

“Losing a loved one during a pandemic can mean grieving without the physical presence of others and without traditional funeral services. It’s lovely that the community is choosing to remember and honor those lost.”

— Samantha Drake Brinkerhoff

# Listening To You

Horizon Health's approach to sustained and responsible growth is rooted in its Community Health Needs Assessment (CHNA). The assessment is done every three years to identify the community's primary health needs and to develop a plan to address them. Significant health needs identified in the CHNA include local access to mental health services, specialist providers, and dialysis services.

## Behavioral Health Expansion

The Paris Clinic construction project doesn't just increase square footage, it also offers increased space for additional providers—specifically behavioral health. The current clinic space will be renovated to better accommodate the practices of specialty providers.

*“Our ‘whole person’ approach to healthcare consists of both medical and behavioral health services, and is what our communities need and want.”*

**—Ollie Smith**

Horizon Health President & CEO

## New Psychologist

Dr. William Elliott, licensed clinical psychologist, joined Abby Barrett, licensed clinical social worker, increasing local access to behavioral/mental health services. Dr. Elliott has 45 years of behavioral health experience. Horizon Health also welcomed new providers at Senior Care and Sycamore Pain & Wellness (see page 1).

## Mobile Integrated Healthcare

As healthcare continued to evolve, so did Horizon Health's approach to increase access to care, improve patient health, and reduce medical costs. Its Mobile Integrated Healthcare (MIH) program grew exponentially in 2021. The service consists of paramedics and other medical personnel who perform in-home visits for people with chronic and complex medical conditions, including COVID-19.

### 2021 MIH VOLUMES

January/February	<b>10 patients</b>
August	<b>30 patients</b>
October	<b>60 patients</b>
December	<b>174 patients</b>

## Patient Transport/Valet Parking

Horizon Health began offering a free patient transport service in the spring at its main campus in Paris. The service was later expanded to include valet parking. In a typical month, attendants provided nearly 1,000 patient transports and valet parking for about 50 vehicles. Both services are available Monday through Friday.

*“These services are an added convenience for our patients, and a way to say thank you for supporting and entrusting us with your healthcare.”*

**—Ollie Smith**  
Horizon Health President & CEO

## Dialysis Service

Horizon Health received a highly anticipated Certificate of Need (CON) from the state of Illinois, allowing it to proceed with offering kidney dialysis through an alternate service provider.

The dialysis space was included in the original construction of the rehab building, which opened in 2018. However, its completion was delayed by a third party vendor initially contracted to operate the service.

The 5,200-square-foot facility will include eight dialysis bays and is expected to open in fall 2022.

# HONORING OUR TEAM

To help ease the stresses of COVID, Horizon Health recognized staff for their unrelenting hard work and dedication.

From National Hospital Week in May to a week-long employee appreciation event in October, staff was celebrated with awards, prizes, and activities. Hospital administration provided all-staff meals periodically to show its appreciation.

Employees who went above and beyond their described duties received awards, including **DAISY** and **High Five PRIDE** recognitions. Each honorary day was filled with opportunities for staff to relax, enjoy themselves, and reconnect with their coworkers.

### DAISY AWARDS

Presented to nursing staff for extraordinary service.

**10 individual recognitions**

**1 team recognition**

### High Five PRIDE Awards

Presented to non-nursing staff for extraordinary service.

**5 individual recognitions**

Horizon Health continued to **INVEST** in local healthcare, offering more education opportunities and technology upgrades to enhance patient care.

**Education House**

As staffing levels and services grew, so did the need for more specialized clinical education. The result was additional education staff and a new location to house them. The Education Department was moved from the main hospital to a house across the street at 798 East Court Street. The new “Education House” serves as a clinical training site for Horizon Health staff and community classes. Horizon Health purchased the house in 2019 as part of its medical campus development efforts.

**Lab Analyzer**

Horizon Health became the second hospital in the nation to acquire the Roche COBAS Pro laboratory analyzer. It yields faster and more accurate results than the previous 10-year-old analyzer. This newest technology allows for future growth in lab testing and expands testing capabilities.

(watch video)

**New CT Scanner**

Horizon Health purchased a 128-slice computed tomography (CT) scanner, which has the largest scan opening in the industry. It accommodates bariatric patients, with a table weight capacity of 700 pounds. The Canon Aquilion Prime SP provides highly detailed images to detect problems involving the brain, heart, lungs, lower legs, and more.

**Pyxis Medication Dispensers**

The pharmacy department purchased five new automated medication cabinets. The Pyxis ES Medstation cabinets provide more secure medication storage, reduce the potential for medication errors, and provide better capacity to meet nursing needs.

In 2021, Horizon Health offered **two new EMT-Basic courses** – one at Paris High School and a similar evening class offered to adult learners. Horizon Health also provided a **community-wide training class** for first responders.

### Where it comes from

### Where it goes

\*Includes grants, donations, 340B program, and more.

## Medication Program Saves Patients Money

Patients saved more than \$2.1 million on prescription drugs through Horizon Health's partnership with Nationwide Prescription Connection (NPC). The program is paid for by Horizon Health and free to patients. It saves patients money on a variety of high-cost prescriptions, including insulin, inhalers, and blood thinners.

In 2021, the program served 140 patients. Discounts were provided for 259 different types of medications and 2,442 prescriptions in total.

A medication may qualify for multiple discount programs, with each having its own eligibility requirements and application process. NPC provides value by managing those programs and processes.

"NPC has truly helped me financially and lifted the weight off my shoulders on how I was going to afford my medication and live. I am very thankful for all the help they have provided."

Chad, age 48

**Monthly Savings**  
**\$3,105.88**

"I am so pleased with the service I have received throughout this process. I am incredibly grateful for NPC."

Robert, age 62

**Monthly Savings**  
**\$1,898.28**

## Financial assistance provided for HMFP patients unable to afford their medical care:

2021	2020	2019
<b>\$1,855,615</b>	<b>\$1,631,558</b>	<b>\$1,404,040</b>

**HORIZON HEALTH  
FOUNDATION**  
OF EAST-CENTRAL ILLINOIS

# Foundation

**Donors gave more than \$220,000 in gifts and in-kind support to the Foundation in 2021. The impact of these generous gifts included the following:**

- » *Two medical devices, donated by psychologist Dr. Marilyn Frey, that provide for more complete monitoring of the brain under anesthesia.*
- » *Two automated CPR devices, known as AutoPulse, provided to the Horizon Health ambulance service. The devices allow responders to perform hands-free chest compressions with the touch of a button.*
- » *Sixteen exam room chairs that easily convert to exam tables in the Paris Clinic. The powered chairs have a high-low adjustable feature that improves access for bariatric patients and those with disabilities.*
- » *Funding for two athletic trainers at area schools.*
- » *Annual healthcare scholarships for Paris High School graduating seniors, nursing students, and Horizon Health staff. (Dr. Leland Phipps Memorial Scholarship, Doc Acklin Scholarships, Nursing Foundation Scholarships)*
- » *Funding for nearly 380 backpacks/school supplies for Horizon Health's seventh annual Back to School Bang health and wellness expo.*

Randi Bohannon, MPA, CFRE  
 Executive Director

Bonnie Higginbotham  
 Executive Assistant

**Diepholz Auto** of Paris made a \$1,000 gift to support local healthcare initiatives.

**First Farmers Bank & Trust, First Mid-Illinois Bank & Trust, First Neighbor Bank,** and **Prospect Bank** each donated \$3,500 to Horizon Health's Meals on Wheels program. These gifts, along with support from other organizations and individuals, totaled more than \$20,000 during the 2021 community appeal.

# The excitement will continue in 2022!

The year ahead promises continued development, while always working toward our vision of meeting the ever-changing needs of our communities.

Dr. Qun Wu, psychiatrist «

New hospitalists «

Full-time cardiologist «

Second general surgeon «

Home health program «

Development of 2022 Community Health Needs Assessment «

Completion of Paris Clinic expansion «

Opening of dialysis center «

Dr. Harish Kempegowda, spine surgeon, to see patients at the Terre Haute Specialty Clinic «

Together...making a difference
